

Rates are for 1 to 10 passengers?

In the local Gulf Shores / Orange Beach area of the Gulf Coast you will find a very diverse and successful fishery along the Gulf of Mexico. This is a page dedicated to helping you understand some of the local terms and slang that are often used in a manner that you may not understand.

I keep seeing pricing on boat for up to 10 people, what does this mean?

Well, quite simply this is just a way of pricing a fishing trip for a group of people to go fishing that offers a good bit of flexibility in the number of people going with you

I want to go fishing and there are only 5 of us in our group. Do we need 10 people?

No you can come by yourself if you want but, I will let you bring up to 10 people for the quoted price. We commonly carry lots of small families who want to be on a big nice boat.

What If I have more than 10 people?

It is no problem, just add 10% for each additional passenger.

What is a 6-pack boat?

A six pack boat is just slang for a USCG determination of how many people a particular boat can carry. All uninspected boats have a 6 passenger limit, but that does not apply to us.

How many people can we bring?

We offer private fishing trips for groups of people from 1 to 46 people. So, if you have a group of friends, family, co-workers, clients or customers and want to show them a great day of fishing and not having to worry about managing personalities then this is what you are looking for.

"Private", "Walk-On" or "Split party trips"

A private trip is just you and your friends on the boat, a walk on trip is just a random group of people mixed together on a boat to go fishing and split party trip is a term used where you have two groups that cannot afford the price of a trip but would like to go deep sea fishing with another group of like-minded people.

So, you may bring any number of people you would like up to 10 without additional cost. However, if you do have more than 10, then we just add 10% per person over and above the quoted cost of the fishing trip.
